LABORATORY REPORT OF REACTIVE TESTS FOR SYPHILIS

Chapter 2, Article 4, Section I
Regulations of WV Board of Health
Effective February 1, 1965

Supervisors of all laboratories in WV that perform serologic or other tests for syphilis shall make a report of all positive or reactive laboratory tests for syphilis to the WV Commissioner of Public Health.

REPORTABLE TESTS:

1. All reactive and weakly reactive serologic tests for syphilis.
2. All reactive and weakly reactive spinal fluid serologic tests for syphilis.
3. All positive darkfield microscopic tests for treponema pallidum.
