Submission Instructions

- Place tick in a water-tight container (e.g. ziplock bag) with a paper towel or cotton ball doused with alcohol to prevent desiccation. An alcohol pad will also suffice.
- Make sure that the container/zip-log bag is sealed to prevent leakage.
- If a lot of ticks are removed from a single animal host, please consider shipping specimens to us in multiple envelopes/containers to prevent specimen damage and leakage.
- Fill out specimen submission form (above) for each submission and attach with specimen(s)
- Cut and keep these instructions.
- Package specimen(s) and the submission form(s) well to avoid damage during shipment.
- Use postage paid envelopes provided for specimens that are shipped in zip-lock bags. For specimens shipped in larger containers, please mail them to:

Zoonotic Disease Program Tick Surveillance
C/O Eric Dotseth
Office of Laboratory Services
167 11th Avenue
South Charleston, West Virginia, 25303

Thank you for your submission. Please check our website for results.

For more information about tickborne disease surveillance in West Virginia or if additional envelopes are needed, please contact the Zoonotic Disease Program at (304) 558-5358 ext. 1 or WVZDProgram@wv.gov. Additional information about ticks and tickborne disease can be found at www.cdc.gov or at our website at <http://www.dhhr.wv.gov/oeps/disease/Zoonosis/Tick/Pages/default.aspx>.
