

West Virginia's Statewide Immunization Information System

1-877-408-8930

*WV Law requires all immunizations administered to patients 18-years-old or under must be reported to the immunization registry within two weeks.
(Legislative Rule 64CSR7)*

- WVSIIIS maintains vaccination records
- WVSIIIS is accessed via the Internet
- WVSIIIS is used to order and track vaccines
- WVSIIIS requires no software
- WVSIIIS offers free technical support 1-877-408-8930

Details:

WVSIIIS benefits everyone. This efficient and organized system benefits the provider, patient and the entire community. This accurate, Internet accessible system assures that our community's children are receiving timely and necessary vaccinations by keeping the provider informed of their immunization history and needs. Providers that use WVSIIIS eliminate their patients worrying about unnecessary or repeat vaccinations. WVSIIIS preserves your patient's shot record for life.

Save time by reporting historical immunization records to WVSIIIS at the same time you report the vaccine you are administering.

It only takes a few minutes to report an immunization administered to the registry. Your few minutes of reporting historical information to the registry will ensure that your patient's up-to-date and accurate shot record is only a click away. WVSIIIS maintains secure off-site storage for patient immunization records. Any doctor, nurse or designated staff member may report immunization information to the registry which also saves time.

Need Technical Support

WVSIIS offers a free help desk for your convenience that is available Monday – Friday during regular business hours.

- Assistance recording a patient's adverse reactions to a vaccine
