

WV Tuberculosis Advisory Committee

The West Virginia Tuberculosis Advisory Committee gives advice and recommendations to the West Virginia Tuberculosis Elimination Program (WV TBEP) regarding the elimination of tuberculosis (TB) in WV. They make recommendations regarding policy development, TB control strategies and priorities. The Advisory Committee is coordinated and supported by WV TBEP. Each member brings their own unique expertise to the table by assisting with disseminating information about TB and being advocates for TB prevention. For information on the advisory committee or to receive notice of upcoming meetings, contact the WV TBEP office at 304-558-3669.
