Receipt of HIV Medical Care **

* Linkage to HIV medical care was measured by documentation of ≥ 1 CD4 or VL or genotype test ≤ 30 , ≤ 91 , ≤ 182 and ≤ 365 days after HIV diagnosis.

** Receipt of care was measured by documentation of ≥ 1 CD4 or VL test during the calendar year. Retention in care was measured by documentation of ≥ 2 CD4 or VL test at least 3 months (≤ 91 days) apart in the calendar year.

*** A VL test result of < 200 copies/mL indicates HIV viral suppression.
